CHARGE AGAINST NEWSPAPER MEN

Libel Suit May Have Been Filed by an Individual.

IDENTITY NOT YET DISCLOSED

Not Improbable, However, That President Roosevelt Is the Complainant in the Case—Also Presumed That William Nelson Cromwell Is the Person Who Began the Action. Lawyers Interested in the Case.

Washington, Jan. 18.—The latest and most interesting suggestion regarding the sensational developments of Saturday, involving the service of subpoenas upon a number of newspaper men in this city and elsewhere, is that an individual, and not the United States government, is the real plaintiff in the case. It is true that the subpoenas served here read "The United States vs. the Press Publishing company," but if the proposed action is criminal in character, as is generally assumed to be the case, that would be the form of a subpoena, even where an individual is the complainant, according to the practice in the District of Columbia.

The identity of this individual or individuals, for there may be more than one of them, is purely a matter of speculation, for the public will have to await the issue of the promised statement of Attorney General Bonaparte, in the course of a day or two, to get any accurate understanding of this remarkable case. Possibly President Roosevelt himself is the complainant, or it may be that the action was begun by William Nelson Cromwell or by Douglas Robinson, or any of the persons named in the original newspaper publications in an

KILLS HIS WIFE AND DAUGHTER

Seattle Attorney Afterward Ends His Own Life.

BODIES FOUND IN BATHROOM

Former National Bank Examiner for Illinois Commits Triple Crime in Western City—Murderer Supposed to Have Been Insane Over Financial Troubles—Police Unable to Locate Weapons Used by Lunatic.

Seattle, Wash., Jan. 18.—W. L. Seeley, an attorney and former national bank examiner for Illinois under Comptroller of the Currency Eckels, his wife, Mrs. Kate M. Seeley, a member of the national society of the Daughters of the American Revolution, and his daughter, Miss Rene Seeley, a student at the University of Washington and a member of the Delta Gamma society, were found dead in a bathroom of their home in the fashionable Capital Hill district. The victims had been dead since the previous Thursday. The women, each of whom was clad in nightgowns, had been murdered by being struck on the head, evidently with a hammer.

There was no mark of violence on Seeley. He is believed to have been partially chloroformed and then drowned in the bathtub. All three were kneeling at the side of the bathtub with their heads submerged in the water. A steamer trunk was on the bodies of Seeley and his wife.

Committed Crime While Insane.

That Seeley killed his wife and daughter while insane over financial worries and then committed suicide is the theory of the coroner and the police. He was clothed in his underwear, shoes and trousers. His nightgown, which was bloodstained from the bodies of the two women, was found beneath a clean pillow in the room occupied by him and his wife. The pillow Mrs. Seeley had been sleeping on was saturated with blood.

Seeley came here less than two years ago from St. Joseph, Mo. He had lived there two years and had moved there from Ottawa, Ill., and had engaged in the practice of law. Seeley was fifty-five years old, his wife about three years his junior and his daughter twenty-two years old. The bodies were found by Guy M. Smelzer, affianced husband of Miss Seeley, and E. R. Stebbel, a friend of the family. The family could not be communicated with after 9 o'clock Thursday night when Smelzer talked over the telephone with Miss Seeley.

Police detectives searched the house for weapons, but were unable to find any blood-stained implements. Nothing of value was taken from the house. Every window and door was found to be securely locked.

An empty choloform bottle was on the stand in the bathroom. Clutched in the hand of Seeley, which was beneath the water, was a pocket handkerchief which, although soaked in water, still carried a faint trace of the odor of chloroform. There were three wounds on the head of Mrs. Seeley. One was above the left eye and the other two were on the forehead part of the head. The blow that evidently killed Miss Seeley was dealt her over the left eye. There were no marks on the man.

RESTAURANT KEEPER SLAIN

Iowa Man Shot Down in His Place of Business.

Union, Ia., Jan. 18.—While getting money to hand to a robber, L. Trimball, a restaurant keeper, was shot twice through the head and instantly killed. Mr. Trimball had been counting his cash when a pistol was thrust into his face by an unknown man who demanded money. Trimball gave up his silver and was about to hand over his bills when the robber, thinking Trimball was reaching for his revolver, fired the fatal shots. A posse is searching for the murderer.

PASSENGERS HURT IN WRECK

Twenty-four of Them Injured, Two of Them Seriously.

Coffeeville, Kan., Jan. 18.—A south-bound passenger train on the Missouri Pacific railroad from Kansas City collided head-on with a northbound freight train two miles west of this city. Twenty-four passengers were hurt, but only two, Mr. and Mrs. P. S. Howell of Nowata, Okla., are in a serious condition. The members of the engine crews jumped and saved themselves. The engines were demolished. The freight crew, it is said, admit that they had overlooked the time of the passenger train.

DIAMOND JUBILEE OF METHODISTS

Birth of Missionary Movement Celebrated in Washington.

Washington, Jan. 18.—In the Metropolitan Methodist Episcopal church in this city Methodist Episcopalians will celebrate with prayer and music and addresses the diamond jubilee of the beginning of the missionary movement of the church. Seventy-five years ago the church sent out its first missionary in the person of Melville B. Cox, who landed on the west coast of Africa, in Liberia, and began the work that has now spread to all parts of the civilized and uncivilized world. President Roosevelt and Vice President Fairbanks will speak at tonight's celebration. Other speakers will be Earl Cranston, Methodist Episcopal bishop of Washington, and Joseph C. Hartzell, missionary bishop to Africa since 1896.

One purpose of the celebration is the starting of a fund to equip in better manner the stations of the Methodist Episcopal church in Africa. There are six of these in different parts of the continent and the sum of \$300,000 is needed to aid in the spreading of their work. Members of the church will be asked tonight to contribute that sum in commemoration of the diamond jubilee, in addition to their regular offerings.

WILL VETO THE MEASURE

But Prohibitionists Will Pass It in Spite of Tennessee Governor.

Nashville, Tenn., Jan. 18.—By a peculiar coincidence, the Cooper murder trial, which was caused indirectly by the prohibition question, comes up for hearing as the fight for statewide prohibition is at its height. The red ribbon forces, by breaking the Democratic caucus, forced a statewide bill through the legislature and it now awaits the governor's action. That Governor Patterson will veto the bill is sure. That it will be passed over the governor's veto is equally sure. Flushed with victory, the Prohibitionists are now trying to pass another bill prohibiting the manufacture of alcoholic, malt and vinous liquors in the state of Tennessee. The measure is known as the statewide law simply prohibits the sale of liquor within four miles of any schoolhouse. The Prohibitionists say that if there is a spot in the state which is not within four miles of a schoolhouse they will see that a schoolhouse is built. The bill to prohibit the manufacture of liquor in the state is being fought more bitterly than any measure ever introduced.

There are many distilleries and breweries in the state, which do an immense interstate business and these naturally are not sitting idle while their business is being legislated out of existence. But the Prohibitionists have the votes and it is not likely that they will give any quarter.

Carried About Twelve Men.

St. Johns, N. F., Jan. 18.—The schooner Swallow left here a fortnight ago laden with herring for Gloucester, Mass. She hailed from Pilley island and the master and men also belonged there. The Swallow carried about twelve men.

Cholera Increasing in St. Petersburg. St. Petersburg, Jan. 18.—There has been a marked increase in the cholera in this city. Fifty-nine cases have been reported in the past twenty-four hours and twenty-one deaths.

"MICHAEL'S"

OPEN SHOP AND FIGHT TO A FINISH

Decided Upon by Hat Manufacturers' Association.

New York, Jan. 18.—The open shop and a fight to the finish was the action decided upon by the Hat Manufacturers' association at a meeting held here to discuss the situation growing out of the strike of hatters, which began Friday. An effect of the strike, according to the manufacturers, will be a rise in the price of hats, as the trouble occurred in the busy season.

Twelve members, comprising the board of directors of the Hat Manufacturers' association, attended the meeting. President Samuel Mundheim, who was in the chair, made the announcement after the meeting that the manufacturers had declared for the open shop and were prepared to fight to a finish. He said the number of strikers was between 15,000 and 20,000, but that there were many non-union hatters out of employment and that eventually the places of the strikers would be filled.

"The manufacturers feel that they have not been treated fairly," he said. "The strikers should have given us notice, according to their agreement, and the action should have been taken by a vote of the union."

Mr. Mundheim, in discussing the discontinuance of the union label by the manufacturers, which precipitated the strike, said:

"The label is of no advantage to the manufacturers and indeed is not wanted. Very few people who buy hats notice whether the label is in it or not."

The manufacturers' president ridiculed the report that the union had \$400,000 with which to make the fight. He said, however, that the hatters' union was one of the strongest labor organizations in the country.

CAMPAIGN ON IN NEW YORK

Woman Suffragists Desire to Impress State Legislators.

New York, Jan. 18.—Imitating to some extent their strenuous English sisters the woman suffragists of New York state will begin tonight at Yonkers a vigorous two weeks' campaign, covering the state as far up as Albany.

The movement will wind up in two large meetings in the state capital intended to impress the state legislators with the strength of the movement. They will be held Jan. 25 and 26.

Mrs. Maybrick Denies Rumor.

Washington, Jan. 18.—Mrs. F. E. Maybrick, whose release from an English prison five years ago was due to the efforts of American women, declared here that she was devoting her life work to prison reforms. Mrs. Maybrick has left for Stamford, Conn., where her mother is ill in a sanatorium. She denied the rumor that she was engaged to be married.

Police Suspect Murder.

Milwaukee, Jan. 18.—Otto Lundstrom, formerly of Peoria, was shot and killed in a resort and though his wife, the owner of the resort, insists that he committed suicide, the police believe that she killed him in a drunken quarrel. Lundstrom was shot four times, and his hands were covered with powder burns. He had recently returned after traveling in the West.

COSTLY FIRE IN BOSTON

Property Valued at Nearly a Million Dollars Destroyed.

Boston, Jan. 18.—A puff of flame shot up from the rear of the most extensive automobile storage and repair plant in the city, located near Park Square, and half an hour later over 348 automobiles, valued at \$750,000, were a mass of tangled steel and iron. The fire spread to the old train shed of the Park Square railroad station, formerly used as the terminal of the Providence division of the New York, New Haven and Hartford railroad, and destroyed the bicycle track and a large pavilion used for exhibition purposes. The damage to the building will bring the total loss to above \$800,000.

There were six garages, including several used chiefly for repairs, in the big storage station, the principal occupants being the Park Square Automobile company, the Boston Motor company, the Rambler Motor company, the Boston Automobile exchange, the Concord Motor Car company and the repair shop of the Marmon company. All the large sight-seeing automobiles in the city, numbering upwards of a dozen, were burned, as also were between thirty and forty expensive cars of the Limousine type. Out of the 350 automobiles stored in the building, only two were saved. The twenty workmen in the building managed to get away safely, although several had narrow escapes.

The firemen had to fight hard to keep the flames from extending to the business blocks on Columbus avenue and fully one-half the entire available apparatus was centered on that side of the fire area. The garage building itself was worth only a few thousand dollars and the train shed had long outlived its usefulness, save as a shelter for exhibition purposes and the bicycle track.

Turn thyself to the true riches and learn to be content with little.—Seneca.

VALUE OF DENTAL HYGIENE

Conference at Boston to Educate Public on the Subject.

Boston, Jan. 18.—In an effort "to educate the public as to the necessity of keeping the mouth and teeth clean and healthy, to establish dental hygiene in schools as a part of public education, to prevent the spread of infectious diseases, to prevent pain and increase the mental and physical efficiency of school people and to establish infirmaries for the treatment of diseased conditions of the mouth and teeth," the Massachusetts state conference on oral and dental hygiene will begin a six days' session here tonight.

The leaders of the conference declare that the importance of dental hygiene has never been understood or appreciated by the public at large. Many of them mention with approval the theory of Dr. Henry Upson, a Cleveland neurologist, who announced a few days ago his discovery that there is a direct connection between defects in dentition on the one hand and criminal instincts and nervous disorders on the other.

Clara Morris Very Ill.

New York, Jan. 18.—It is learned that Clara Morris, the actress, who has been ill for a long time, is in a serious condition. A nervous breakdown was the first cause of her illness. Miss Morris, who in private life is Mrs. Frederick C. Harriot, is at her home in Yonkers, N. Y. She is sixty years old.

Narrow Escape for Students.

Frankfort, Mich., Jan. 18.—A number of women students narrowly escaped being burned to death when the dormitory of Benzonia college at Benzonia, Mich., burned to the ground. Students who slept on the third floor were rescued with great difficulty by means of ladders, and reached the ground scantily clad. The property loss was \$5,000.

CHARGE AGAINST NEWSPAPER MEN

Libel Suit May Have Been Filed by an Individual.

IDENTITY NOT YET DISCLOSED

Not Improbable, However, That President Roosevelt Is the Complainant in the Case—Also Presumed That William Nelson Cromwell Is the Person Who Began the Action. Lawyers Interested in the Case.

Washington, Jan. 18.—The latest and most interesting suggestion regarding the sensational developments of Saturday, involving the service of subpoenas upon a number of newspaper men in this city and elsewhere, is that an individual, and not the United States government, is the real plaintiff in the case. It is true that the subpoenas served here read "The United States vs. the Press Publishing company," but if the proposed action is criminal in character, as is generally assumed to be the case, that would be the form of a subpoena, even where an individual is the complainant, according to the practice in the District of Columbia.

The identity of this individual or individuals, for there may be more than one of them, is purely a matter of speculation, for the public will have to await the issue of the promised statement of Attorney General Bonaparte, in the course of a day or two, to get any accurate understanding of this remarkable case. Possibly President Roosevelt himself is the complainant, or it may be that the action was begun by William Nelson Cromwell or by Douglas Robinson, or any of the persons named in the original newspaper publications in an

invidious way. A significant fact is that Mr. Cromwell was in Washington when the action was taken of serving the subpoenas, though he left during the night for New York.

Local lawyers are discussing the case with interest and already sharp differences of opinion appear as to the right of the United States government to prosecute a criminal libel proceeding against either an individual or a newspaper, which is after all the bone of contention, for there can be no question of the right of an individual to bring such an action. It is pointed out that the supreme court is on record in the Goodwin case as denying the power of a United States circuit court to take jurisdiction in a criminal case.

On the other hand, while it is admitted that there is no statutory law warranting such an action by the government, it certainly does enjoy such a right under the common law, as an absolutely necessary measure of power to protect the very existence of the government.

DIAMOND JUBILEE OF METHODISTS

Veteran gives the following

TESTIMONIAL

ST. PAUL, MINN.
Gentlemen: I have been a sufferer from rheumatism. I was laid up in bed and gave up all hope of being cured. Your remedy was recommended to me by Chief of Police O'Connor, who said 6088 had cured him. On taking one-fourth of the bottle I was able to get out of bed—the first time in thirty days. I have taken my second bottle and now consider myself entirely cured. I write this that others may know of this wonderful remedy. Respectfully yours,
W. E. BIRCHER,
U. S. Q. M., Armory Bldg.

MATT J. JOHN-SON'S **6088**

has cured thousands of sufferers and I am certain it will cure you. My guarantee is evidence of my good faith.

GUARANTEE: If, upon taking half of a bottle of "6088" it does not give satisfaction, you can return the half bottle and get your money back.

Ascalon Commandry, No. 16, held a very pleasant session in its hall in Columbian block Saturday afternoon and evening. The Knight Templar degrees were conferred upon two candidates from Little Falls. John T. Black, grand captain general of the jurisdiction of Minnesota, and Chas. W. Wilson, past eminent commander of Duluth Commandry, No. 18, were present and assisted in conferring the degrees. After the work a banquet was served at West's restaurant at which 32 Knights sat down.

HUGE AIRSHIP

Expected to Cross Atlantic Ocean In Two Days.

HALF A MILE IN LENGTH.

Wings on Monster to Serve as Promenade Decks For Voyagers—To Carry 2,500 Passengers—All Metal and Furniture to Be Inflated With Hydrogen.

How would you like to travel across the Atlantic in an airship the passenger carrying capacity of which is as great as that of the biggest steamship afloat?

This is not a mere hypothetical question. Within a year airships of that kind will be actually plying between New York and London, according to the plans now being worked upon by Lewis Nixon, who designed the warships Oregon, Indiana and Massachusetts.

The first of the series of airships will be a comparatively small affair, 700 feet in length and eighty feet in its greatest breadth. But the larger vessels will have a length of 2,800 feet and will be capable of carrying 2,500 passengers, including the crew, as well as fuel, provisions, etc., necessary for the trip. And, incidentally, the trip across the ocean will consume a fraction more than two days.

Thurlof Weed Barnes, the president of a navigation company which is financing the new venture in aeronautics, said to a New York Journal reporter the other day that he expected the first of the great airships to be launched within the next twelve months.

He said that there were fifteen directors of the new company, each of whom is a power in the financial world. And it is very obvious that nothing less than the biggest sort of financiers could undertake so stupendous an enterprise, as the smallest of the airships—the one which is to be 700 feet in length—is to cost not less than \$1,000,000.

The construction of the airships will involve four principles which have never been used in combination in any other airship ever constructed. These principles are compactness, inasmuch as even the passenger carrying part of the ship will be within its body instead of merely attached to it in basket form. Secondly, buoyancy will be secured by inflating with hydrogen or other lighter than air gas not only part of the body of the ship, but even the hollowed out furniture and the propellers, which thus also become lighter than air and will float if tossed

overboard from above the clouds. The third principle is that of aeroplanes, one of which will protrude on each side of the body of the ship. This will add to the buoyancy given by the gas, the skimming power which sustains the heavier than air ships. And, finally, the fourth unique principle is that of the helicopters or propellers on the sides of the ship, which, when run horizontally, raise the ship to any required height and can then be turned on a swivel to a vertical position to propel the ship forward.

In connection with the aeroplane, it is an interesting fact that they will serve on the large type of machine as promenade decks for the passengers.

The front propeller serves not only the purpose of drawing the ship forward by creating a vacuum of air into which the ship is sucked, but by the terrific speed of its revolutions it also acts as a set-off to currents of air and will, moreover, keep rain and snow from touching the ship.

The furnishing of the passenger quarter will be fully as luxurious as that of the most up to date Pullman car or ocean greyhound. The furniture will be comfortably large and constructed of pulp or aluminium. It will be hollow and filled with gas, as will everything else capable of holding the lighter than air fluid.

MASS AGAIN SAID IN REGGIO

Picturesque Event Recalls Early Days of the Church.

Reggio, Jan. 18.—For the first time since the earthquake disaster of Dec. 28, mass was said in Reggio under conditions that recalled the early days of the church. Processions passed through the streets of the city ringing bells and calling the people to the service, which was held in an orange and lemon grove near the shore. The altar, set up under the picturesque and pastoral surroundings, was formed by a table covered with a white cloth, behind which was hung a cheap chime print of Christ. Around this were arranged several candles, a crucifix and some sacred vessels, all protected from the wind by a cloth screen. There were present many women and children, all of whom knelt before the improvised altar, while the men stood with uncovered heads behind them. On the outskirts of the crowd were several shepherds in the midst of their flocks, standing erect in their characteristic dress with hands crossed over the top of their crooks, upon which they rested their chins. The whole scene might have been taken from one of the early Biblical pictures of a primitive religious service. The crowd followed the ceremony with great interest and much fervor was shown in carrying out the form of their religion.

New York, Jan. 15.—Some of the country's leading athletes, men who have upheld the athletic fame of America in England and other lands, will meet tonight in Brooklyn at the games of the Postoffice Clerks' association.

The programme calls for twenty-six events. Many members of the American Olympic team will be on hand to contest for the diamond prizes, including all of the six famous athletes who were reinstated by the registration committee last week—Bellare, Sheppard, Bacon, Porter, Lee and Bonhag.

Made of Forest Roots

Dr. Pierce believes that our American forests abound in most valuable medicinal roots for the cure of most obstinate and fatal diseases, if we would properly investigate them; and, in confirmation of this conviction, he points with pride to the almost marvelous cures effected by his

"Golden Medical Discovery"

which has proven itself to be the most efficient stomach tonic, liver invigorator and blood cleanser known to medical science. Dyspepsia, or indigestion and torpid liver yield to its curative action.

The reason why it cures these and many other affections, is clearly shown in a little book of extracts from the standard medical works which is mailed free to any address by Dr. R. V. Pierce, of Buffalo, N. Y., to all sending request for the same.

Not less marvelous, in the unparalleled cures it is constantly making of woman's many peculiar affections, weaknesses and distressing derangements is

Dr. Pierce's Favorite Prescription,

as is amply attested by thousands of unsolicited testimonials contributed by grateful patients who have been cured by it, often after many other advertised medicines, and physicians had failed.

Both the above mentioned medicines are wholly made up from the glyceric extracts of native, medicinal roots. The processes employed in their manufacture were original with Dr. Pierce, and they are carried on by skilled chemists and pharmacists with the aid of apparatus and appliances specially designed and built for this purpose. Both medicines are entirely free from alcohol and all other harmful, habit-forming drugs. A full list of their ingredients is printed on each bottle-wrapper. Don't accept secret nostrums as substitutes for these medicines OF KNOWN COMPOSITION.

Veteran gives the following

TESTIMONIAL

St. Paul, Minn.
Gentlemen: I have been a sufferer from rheumatism. I was laid up in bed and gave up all hope of being cured. Your remedy was recommended to me by Chief of Police O'Connor, who said 6088 had cured him. On taking one-fourth of the bottle I was able to get out of bed—the first time in thirty days. I have taken my second bottle and now consider myself entirely cured. I write this that others may know of this wonderful remedy. Respectfully yours,
WM. BIRCHER,
U. S. Q. M., Armory Bldg.

MATT J. JOHN-SON'S **6088**

has cured thousands of sufferers and I am certain it will cure you. My guarantee is evidence of my good faith.
GUARANTEE: If, upon taking half of a bottle of "6088" it does not give satisfaction, you can return the half bottle and get your money back.

HUGE AIRSHIP

Expected to Cross Atlantic Ocean
In Two Days.

HALF A MILE IN LENGTH.

Wings on Monster to Serve as Promenade Decks For Voyagers—To Carry 2,500 Passengers—All Metal and Furniture to Be Inflated With Hydrogen.

How would you like to travel across the Atlantic in an airship the passenger carrying capacity of which is as great as that of the biggest steamship afloat?

This is not a mere hypothetical question. Within a year airships of that kind will be actually plying between New York and London, according to the plans now being worked upon by Lewis Nixon, who designed the warships Oregon, Indiana and Massachusetts.

The first of the series of airships will be a comparatively small affair, 700 feet in length and eighty feet in its greatest breadth. But the larger vessels will have a length of 2,800 feet and will be capable of carrying 2,500 passengers, including the crew, as well as fuel, provisions, etc., necessary for the trip. And, incidentally, the trip across the ocean will consume a fraction more than two days.

Thurloe Weed Barnes, the president of a navigation company which is financing the new venture in aeronautics, said to a New York Journal reporter the other day that he expected the first of the great airships to be launched within the next twelve months.

He said that there were fifteen directors of the new company, each of whom is a power in the financial world. And it is very obvious that nothing less than the biggest sort of financiers could undertake so stupendous an enterprise, as the smallest of the airships—the one which is to be 700 feet in length—is to cost not less than \$1,000,000.

The construction of the airships will involve four principles which have never been used in combination in any other airship ever constructed. These principles are compactness, inasmuch as even the passenger carrying part of the ship will be within its body instead of merely attached to it in basket form. Secondly, buoyancy will be secured by inflating with hydrogen or other lighter than air gas not only part of the body of the ship, but even the hollowed out furniture and the propellers, which thus also become lighter than air and will float if tossed

overboard from above the clouds. The third principle is that of aeroplanes, one of which will protrude on each side of the body of the ship. This will add to the buoyancy given by the gas, the skimming power which sustains the heavier than air ships. And, finally, the fourth unique principle is that of the helicopters or propellers on the sides of the ship, which, when run horizontally, raise the ship to any required height and can then be turned on a swivel to a vertical position to propel the ship forward.

In connection with the aeroplane, it is an interesting fact that they will serve on the large type of machine as promenade decks for the passengers. The front propeller serves not only the purpose of drawing the ship forward by creating a vacuum of air into which the ship is sucked, but by the terrific speed of its revolutions it also acts as a set-off to currents of air and will, moreover, keep rain and snow from touching the ship.

The furnishing of the passenger quarter will be fully as luxurious as that of the most up to date Pullman car or ocean greyhound. The furniture will be comfortably large and constructed of pulp or aluminum. It will be hollow and filled with gas, as will everything else capable of holding the lighter than air fluid.

MASS AGAIN SAID IN REGGIO

Picturesque Event Recalls Early Days of the Church.

Reggio, Jan. 18.—For the first time since the earthquake disaster of Dec. 28, mass was said in Reggio under conditions that recalled the early days of the church. Processions passed through the streets of the city ringing bells and calling the people to the service, which was held in an orange and lemon grove near the shore. The altar, set up under the picturesque and pastoral surroundings, was formed by a table covered with a white cloth, behind which was hung a cheap chome print of Christ. Around this were arranged several candles, a crucifix and some sacred vessels, all protected from the wind by a cloth screen. There were present many women and children, all of whom knelt before the improvised altar, while the men stood with uncovered heads behind them. On the outskirts of the crowd were several shepherds in the midst of their flocks, standing erect in their characteristic dress with hands crossed over the top of their crooks, upon which they rested their chins. The whole scene might have been taken from one of the early Biblical pictures of a primitive religious service. The crowd followed the ceremony with great interest and much fervor was shown in carrying out the form of their religion.

New York, Jan. 16.—Some of the country's leading athletes, men who have upheld the athletic fame of America in England and other lands, will meet tonight in Brooklyn at the games of the Postoffice Clerks' association.

The programme calls for twenty-six events. Many members of the American Olympic team will be on hand to contest for the diamond prizes, including all of the six famous athletes who were reinstated by the registration committee last week—Bellaire, Sheppard, Bacon, Porter, Lee and Bonhag.

Made of Forest Roots

Dr. Pierce believes that our American forests abound in most valuable medicinal roots for the cure of most obstinate and fatal diseases, if we would properly investigate them; and, in confirmation of this conviction, he points with pride to the almost marvelous cures effected by his

"Golden Medical Discovery"

which has proven itself to be the most efficient stomach tonic, liver invigorator and blood cleanser known to medical science. Dyspepsia, or indigestion and torpid liver yield to its curative action.

The reason why it cures these and many other affections, is clearly shown in a little book of extracts from the standard medical works which is mailed free to any address by Dr. R. V. Pierce, of Buffalo, N. Y., to all sending request for the same.

Not less marvelous, in the unparalleled cures it is constantly making of woman's many peculiar affections, weaknesses and distressing derangements is

Dr. Pierce's Favorite Prescription,

as is amply attested by thousands of unsolicited testimonials contributed by grateful patients who have been cured by it, often after many other advertised medicines, and physicians had failed.

Both the above mentioned medicines are wholly made up from the glyceric extracts of native, medicinal roots. The processes employed in their manufacture were original with Dr. Pierce, and they are carried on by skilled chemists and pharmacists with the aid of apparatus and appliances specially designed and built for this purpose. Both medicines are entirely free from alcohol and all other harmful, habit-forming drugs. A full list of their ingredients is printed on each bottle-wrapper. Don't accept secret nostrums as substitutes for these medicines OF KNOWN COMPOSITION.

HAVE SIGNED AGREEMENT

Nearly Every Merchant in the City Has Signed the Agreement Presented by the Clerks' Union

We the undersigned merchants and business men of the City of Brainerd, Minnesota, do hereby agree to close our respective stores and places of business during the year of our Lord 1909 at six o'clock p. m. on all days except Saturdays, General Northern Pacific Railway and shop days, and the nights before the following legal holidays, to wit: January 1st, or New Years day, Decoration, or National Memorial Day, July Fourth, Labor and Thanksgiving Day. On all open nights we do agree to close at (Ten) o'clock p. m. The above holidays and Sundays we will close all day. We the undersigned merchants and business men reserve the right to keep our respective stores and places of business open to the public from the fifteenth day of December until the night of the twenty-fourth of December, not later than (12) twelve o'clock p. m. if we so desire:

Religious Author's Statement

For several years I was afflicted with kidney trouble and last winter I was suddenly stricken with a severe pain in my kidneys and was confined to bed eight days unable to get up without assistance. My urine contained a thick white sediment and I passed same frequently day and night. I commenced taking Foley's Kidney Remedy, and the pain gradually abated and finally ceased and my urine became normal. I cheerfully recommend Foley's Kidney Remedy. H. P. Dunn, Druggist. mwf-w

BASKET BALL GAME

Y. M. C. A. Intermediate vs. Aitkin 7th Grade at Aitkin Saturday at 8 P. M.

| Aitkin | Brainerd |
|-----------------|------------|
| Peterburg f | White |
| Sweetman f | Elder |
| Kelley (Capt) c | Blake |
| Scot g | *Fullerton |
| Rice g | McGinn |

*Bush was substituted for Fullerton in the second half.

20 minute halves with 10 minutes intermission.

| Score | Aitkin | Brainerd |
|-------------|--------|----------|
| First half | 8 | 2 |
| Second half | 11 | 7 |

Field goals—Kelley, 4, Sweetman 1, Bush 1.

Fouls thrown—Peterburg, 1, White 1, Bush 1, Elder 3.

Officials—

Umpire and referee (alternating halves) W. O'Hara and J. C. Manville.

Score Keepers—Paul Zeese, Bush and Fullerton.

Time Keepers—Paul Zeese and Avel Nelson.

The Aitkin team certainly showed team work and played a snappy game, at times being inclined to roughness, and a number of fouls were called, the throwing of which is evident in the score. The Brainerd boys seemed to be swept off their feet at times yet played a clean game all through. Fouls were called on them in a number of instances. The game went off smoothly and a good reputation was left behind which is worth more than the score.

You would not delay taking Foley's Kidney Remedy at the first sign of kidney or bladder trouble if you realized that neglect might result in Bright's disease or diabetes. Foley's Kidney Remedy corrects irregularities and cures all kidney and bladder disorders. H. P. Dunn, Druggist. mwf-w

Persian Prince a Suicide.

St. Petersburg, Jan. 16.—Shah Kahn, a Persian prince in the Russian service, committed suicide because he had been relieved of the command of the Fifteenth dragoons.

There is no case on record of a cough, cold or la grippe developing into pneumonia after Foley's Honey and Tar has been taken, as it cures the most obstinate deep seated coughs and colds. Why take anything else. H. P. Dunn, Druggist. mwf-w

DOWNIE HOME WAS RUINED BY FIRE

Blaze Thought to Have Caught From a Defective Heating Plant—Family at Church

PET DOG WAS SUFFOCATED

Children: Mourn the Loss of Dog Who Evidently Died Trying to Warn Family

A fire which evidently started from a defective heating plant caused a nearly total loss of the residence at 209 North Fourth street, on Sunday evening about 9 o'clock owned by Mrs. Annie Nevers and occupied by M. W. Downie and family. Mr. Downie and family had been at church and stopped at the home of Mr. and Mrs. W. H. Strachan on their way home. Just after they left the Strachan home the fire alarm rang and they arrived home to find the house in flames. The alarm had been given by Dr. Werner Hemstead, who had chanced to see the smoke coming from the building.

The fire originated in the basement, apparently from the heating plant, which was of hot air variety. The fire had made considerable headway before it was discovered and the contents of the house were badly damaged by fire, water and smoke before the flames were subdued.

Mr. Downie states that the loss which the family mourns the most is that of the children's cocker spaniel dog. The dog, which slept in the kitchen, was in the habit of going up stairs every morning to wake up the family. When the fire broke out the animal, evidently thinking the family was upstairs, had gone up to arouse them as he was found suffocated in one of the upper rooms.

The loss to the residence is estimated at \$1,500 to \$2,000 with an insurance in the Chadburne agency of \$1,800. Mr. Downie was unable to estimate his loss which will be heavy. He had \$1,900 insurance, also carried by Mr. Chadbourne.

The fire was well under way before it was discovered and the fire boys did excellent work to prevent the total destruction of the building.

If you will take Foley's Orino Laxative until the bowels become regular you will not have to take purgatives constantly, as Foley's Orino Laxative positively cures chronic constipation and sluggish liver. Pleasant to take. H. P. Dunn, Druggist. mwf-w

MUSIC AND DRAMA

"Old Farmer Hopkins"

The band was the best feature of the company which produced "Old Farmer Hopkins" at the opera house Saturday night. That and the orchestra were above the average of those traveling with the so-called popular priced theatre companies. But little, however can be said of the play or the way it was put on.

"The Land of Nod"

The Rork production of "The Land of Nod" is so well and favorably known to the theatre-goers of Brainerd that the announcement of its presentation on Friday evening, January 22, will be received with more than ordinary pleasure. It was one of the distinct successes of last season, and the knowledge that it will be repeated by practically the same cast which made such a hit then will arouse anticipations of keen enjoyment. Knox Wilson as "April Fool" and Miss Grace Drew as "The Jack of Hearts" will repeat their performance of last season. The sale of seats begins Thursday morning at 10 o'clock at Dunn's drug store.

At the Unique

On Monday, Tuesday and Wednesday evenings will be repeated the program which pleased the audiences at each of the three performances given last evening. "Colonial Virginia" shows the founding and subsequent events in Jamestown, and is portrayed in a film of 1500 feet in length. "Puss in Boots" is a fairy tale which takes with the children. "Bicycle Polo," a new and strenuous game is shown as played recently between an American and an English team. Miss Graham continues to please with the latest illustrated songs and solos.

Many little lives have been saved by Foley's Honey and Tar, for coughs, colds, croup and whooping cough. It is the only safe remedy for infants and children as it contains no opiates or other narcotic drugs, and children like Foley's Honey and Tar. Careful mothers keep a bottle in the house. Refuse substitutes. H. P. Dunn, Druggist. mwf-w

Suede Muffs Society Fad.

Young women recently returned from Europe are wearing suede muffs, which are said to be one of the latest conceits of fashion in Paris and London. They are dainty little things, and some of them are ornamented with clusters of violets, roses, gardenias and sprays of holly and mistletoe.

LECTURE ON CHINA

Rev. A. E. Andre, of Minneapolis, is Holding a Series of Missionary Meetings in Brainerd

Rev. A. E. Andre, of Minneapolis, spoke yesterday forenoon and evening at the Mission church and to the Sunday school and Young Peoples meeting at the Swedish Baptist church. Mr. Andre was raised in this city where he has numerous friends and there was consequently a large attendance at all the meetings.

His parents, Mr. and Mrs. P. Schoberg, resided here until 1902 when they moved to Seattle. Mr. Andre enjoys the doubly unique honor of being the youngest missionary ever sent to the foreign field by a missionary board and probably the only representative of our city on the missionary field as well as in the ministry.

Having attended High school here he left for India and Tibet in March 1892, at the early age of fifteen the local Mission church having subscribed to his support. He returned in 1896 and was then sent out to China. When the Boxer trouble broke out he had to flee to Japan for safety. The war dragging on and Mrs. Andre's health giving way under the strenuous circumstances, they returned to the states in 1901 but returned to China again in 1902 where they have since been laboring until their return to this country last year.

Mr. Andre will lecture on China at the Swedish Baptist church in Swedish tomorrow, Tuesday night, at 8 o'clock, and at the Methodist Episcopal church Wednesday evening at 8 o'clock, in English. On each occasion the church will be decorated in Chinese style with silk umbrellas, scrolls and typographical decorations. The speaker will be attired in Chinese costume, and will illustrate the lecture with a display of idols, opium pipe, chopsticks, ladies shoes and other curios. The lecture will comprise China's history, topography, cuisine, curious customs, political and social conditions as well as religions.

Simple Remedy for La Grippe

Racking la grippe coughs that may develop into pneumonia over night are quickly cured by Foley's Honey and Tar. The sore and inflamed lungs are healed and strengthened, and a dangerous condition is quickly averted. Take only Foley's Honey and Tar in the yellow package. H. P. Dunn, Druggist. mwf-w

NEW RED CROSS STAMP.

Stromboli and Relief Symbol Will Be on Italian Aid Issue.

The Massachusetts branch of the Red Cross has adopted a new specially designed one cent stamp as an additional means of raising money for the fund to succor the afflicted people of Calabria and Sicily.

The familiar Christmas and New Year's stamps for the benefit of the tuberculosis campaign have been remarkably successful. Since the Italian disaster all sales of these stamps have been for the benefit of the Italian fund. About 2,500 a day have been sold at the general postoffice alone, but it has been thought best to have something distinctive.

The new stamp is triangular in form and represents Stromboli surmounted by clouds of smoke and steam, out of which, clear and triumphant, arises the Red Cross symbol.

The stamp design is the joint gift of Artists Mary Ware Dennett and Alice Morse, who were consulted by the Red Cross officers.

CONVENTION OF "HOBBOES."

J. Eads How Calls Them to Meet in St. Louis Jan. 22.

J. Eads How, known as the "king of hobboes," has been heard from. Two months ago he left New York, and the first intimation of his whereabouts since then became known recently, when his followers in New York city received from him an invitation to attend a national convention of "hobboes" in St. Louis. The letter read:

"Realizing that this is going to be a hard winter and that there are all the way from 35,000 to 100,000 men out of employment in all the large cities of the country, we have decided to call a convention of delegates from the different centers to meet in St. Louis on Jan. 22, 23 and 24. The object of this convention will be to endeavor to secure employment for all those desiring work and to attempt to get transportation for unemployed men to their jobs, as well as to consider other matters that are very vital to the unemployed."

Three Negroes and a Mule Killed.

Laurens, S. C., Jan. 16.—Three negro men and a mule were instantly killed by a boiler explosion which occurred at Barnes' saw mill, four miles from this city.

\$100 REWARD \$100

The readers of this paper will be pleased to learn that there is at least one dread disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F. J. CHENEY & CO., Toledo, O.

Sold by all druggists, 75c. Take Hall's Family pills for constipation.

CLOTHIERS AND GENTS' FURNISHINGS

POE CENTENARY CELEBRATION

Begun Today at the University of Virginia.

ROOM OPENED AS A MUSEUM

Exercises in Honor of the One Hundredth Anniversary of the Famous Poet's Birth Will Last Four Days. Four Cities Will Join in Paying Homage to the Memory of the Author of "The Raven" and "The Bells."

Washington, Jan. 16.—With the opening today of the room of Edgar Allan Poe at the University of Virginia as a Poe museum the national celebration of the centenary of the great writer's birth began.

There will be no one great central celebration of the one hundredth anniversary of the poet's birth, which occurs Jan. 19. A number of separate celebrations, however, will be held in his honor—one in Boston, where he was born; one at the University of Virginia, where he was educated; another in Providence, R. I., where, after the death of his wife, he wooed Mrs. Sarah Helen Whitman,

THE POE COTTAGE.

also a poet; another in New York, where he lived the closing years of his life, and one in Baltimore, where he died threescore years ago.

Will Hold Appropriate Exercises.

At the University of Virginia the celebration proper will begin this evening, when the Jefferson Literary society, of which the university's greatest literary genius was a member, will hold appropriate exercises. Tomorrow evening the Rev. Dr. W. A. Barr of Lynchburg, Va., will preach in the college chapel.

On Jan. 19 the celebration at the university will reach its climax and assume an international importance. Poe's influence not only on American literature and letters, but on foreign literature, will be the subject of addresses by prominent men.

Two celebrations will be held in New York city on Jan. 19, one at Columbia university, where Thomas Nelson Page, the Virginia author, will be one of the speakers, and another at Fordham college and New York university.

The exercises at Poe's cottage at Fordham will consist of a reception in the poet's tiny home, where his

wife died, and the dedication of a tablet in Poe park. This will be followed by a memorial meeting in the auditorium of New York university.

Professor George E. Woodberry, a biographer of Poe, will preside, while the speakers will be Dr. Hamilton Wright Mable and Henry Noble MacCracken. A poem written for the occasion will be read by its author, Edwin Markham.

EULOGIZING SENATOR WHYTE

Senate Devotes Time Today to Memory of Late Marylander.

Washington, Jan. 16.—Today does not exist on the calendar of the United States senate so far as the transaction of public business is concerned. Differences with the president, with the house of representatives and other causes of vexation were forgotten in the homage paid to the memory of the late William Pinkney Whyte, senator from Maryland, who died last March at the age of eighty-four, after long public service.

The address of eulogy was delivered by Senator Rayner of Maryland, colleague of the late statesman.

ENTOMBED NINETEEN DAYS

Children Rescued Alive From Ruins of Their Home.

Messina, Jan. 16.—One hundred sailors from the United States battleship Illinois have been substituted for the men of the Yankton in searching the ruins of the American consulate. All the efforts to find their bodies thus far have been ineffectual, though some of the visiting cards of Mrs. Cheney and books and pictures belonging to the consul have been found.

A thrilling rescue was effected when after having been buried for nineteen days under the ruins of their home, three children of Nicolò Minissoli, who emigrated to America some time ago, were saved. Francesco Minissoli, a boy aged nine years, managed to crawl out alone by burrowing from the ruins. He was wounded in several places and covered with blood. Once in the open air, he fainted, but was taken to a hospital, where he was soon revived and told his story. His two sisters, who had been buried with him, then were rescued by soldiers.

The boy's story seemed almost incredible. On the morning of the earthquake, he said he saw his mother crushed to death under the beams of the ceiling in their home. Francesco and his two sisters fled to the next room, but in a few moments they were precipitated to the cellar. They made desperate efforts to get out, but failed.

In absolute darkness the children groped about the cellar and found a few onions and some wine, water and oil. For sixteen days thus they lived in perfect darkness. Then, when hope almost had fled and when his sisters had resigned themselves to die, Francesco saw in one corner of the prison a faint light. Rushing to the spot, he worked at the debris with his hands and nails and even employing stones as tools, and for three days kept at his task until at last he forced his passage through the opening he had made and was saved.

Kills His Wife and Himself.

Alliance, O., Jan. 16.—Albert Lazinwood, fifty years old, a farmer living near Bergholz, shot and killed his wife, fifty-five years old, and then killed himself on the road near Annapolis. Jealousy is supposed to have been the cause. Lazinwood and his wife had been living apart for several months.

EXTRA FREIGHT TRAINS COLLIDE

Four Trainmen Killed and Two Others Badly Hurt.

Peoria, Ill., Jan. 16.—Two extra freight trains on the Chicago and Northwestern collided head-on near a siding known as Limestone, four miles northwest of this city. Three trainmen were instantly killed, one is missing and believed to be in the wreckage and two others were seriously injured, one of whom may die. The dead are:

Joe Curtin, engineer, Sterling, Ill.; M. Metzler, fireman, home in Virginia; J. A. Russell, brakeman, Sterling. The missing man, buried in the wreckage, is O. A. Houchins, brakeman, Sterling, Ill.

The injured men are W. J. Watson, Chicago, fireman, serious, will die; Thomas Neville, Chicago, engineer, leg broken and bruised.

Owing to the darkness and a fitful fall of snow, the engineers could not see each other's trains until too close to avoid the smash. The two engines and half a dozen loaded freight cars in each train are piled into a splintered mass. A wrecking train was hurriedly sent to the scene and two of the dead and two injured were brought to the city. Two other bodies are still beneath the wreckage.

No cause can definitely be assigned for the disaster, though it is generally believed it was a mistake in train orders.

Pigs' Blood For Tuberculosis.

Pigs' blood medically prepared is of the highest value in the cure of incipient tuberculosis, according to an announcement recently made by Dr. Daniel E. Ricardo, lecturer on gynecology and surgery in the Postgraduate Medical college at Chicago. Ox blood or cow blood is also good, according to the physician, but he places the highest value on pigs' blood, because the latter contains a much higher percentage of hemoglobin—the red part of the blood corpuscles.

To Messina.

Thou art widow by the sea,
With thy dead encumbering thee.
Thou art light, and thou art doom,
Desolate by an awful tomb.
Dust the greatness, dust the gleam
Of thy glory and thy dream!

City, thou art one apart
With a gray grief in the heart,
Broken and with violence bent
By the Titan element.
Weeping that where'er ye tread
Stare the dim eyes of the dead!

Sicily, this blossom warm
Of thy beauty rolls in storm.
Rocks in thunder and thou art doom,
Where the tidal seas have tossed
Doom upon her, and her light
Fades with wailing down the night

Cease, ye cymbals; halt the feet
Of Theoceran dancers sweet.
Yonder on the sultry air
Floats the lurid giant Despair.
Horror follows, and the land
Rolls in fragments to the strand!

Yet be comforted, dark Grief,
Rushing to thy quick relief
All the old humanity
Of the Christian world, set free
On the wings of Love, makes haste
To repair thy wound and waste!

Time that buries also builds;
Doom that crushes also glides.
Out of night the dream of night
Leadeth to the light of light.
Sister, bowed beside thy sea,
God forgets not such as these!
—Baltimore Sun.

DOWNIE HOME WAS RUINED BY FIRE

Blaze Thought to Have Caught From Defective Heating Plant--Family at Church

PET DOG WAS SUFFOCATED

Children: Mourn the Loss of Dog Who Evidently Died Trying to Warn Family

A fire which evidently started from a defective heating plant caused a nearly total loss of the residence at 209 North Fourth street, on Sunday evening about 9 o'clock owned by Mrs. Annie Nevers and occupied by M. W. Downie and family. Mr. Downie and family had been at church and stopped at the home of Mr. and Mrs. W. H. Strachan on their way home. Just after they left the Strachan home the fire alarm rang and they arrived home to find the house in flames. The alarm had been given by Dr. Werner Hemstead, who had chanced to see the smoke coming from the building.

The fire originated in the basement, apparently from the heating plant, which was of hot air variety. The fire had made considerable headway before it was discovered and the contents of the house were badly damaged by fire, water and smoke before the flames were subdued.

Mr. Downie states that the loss which the family mourns the most is that of the children's cocker spaniel dog. The dog, which slept in the kitchen, was in the habit of going up stairs every morning to wake up the family. When the fire broke out the animal, evidently thinking the family was upstairs, had gone up to arouse them as he was found suffocated in one of the upper rooms.

The loss to the residence is estimated at \$1,500 to \$2,000 with an insurance in the Chadburne agency of \$1,800. Mr. Downie was unable to estimate his loss which will be heavy. He had \$1,000 insurance, also carried by Mr. Chadbourne.

The fire was well under way before it was discovered and the fire boys did excellent work to prevent the total destruction of the building.

If you will take Foley's Orino Laxative until the bowels become regular you will not have to take purgatives constantly, as Foley's Orino Laxative positively cures chronic constipation and sluggish liver. Pleasant to take. H. P. Dunn, Druggist. mwf-w

MUSIC AND DRAMA

"Old Farmer Hopkins"

The band was the best feature of the company which produced "Old Farmer Hopkins" at the opera house Saturday night. That and the orchestra were above the average of those traveling with the so-called popular priced theatre companies. But little, however can be said of the play or the way it was put on.

"The Land of Nod"

The Rork production of "The Land of Nod" is so well and favorably known to the theatre-goers of Brainerd that the announcement of its presentation on Friday evening, January 22, will be received with more than ordinary pleasure. It was one of the distinct successes of last season, and the knowledge that it will be repeated by practically the same cast which made such a hit then will arouse anticipations of keen enjoyment. Knox Wilson as "April Fool" and Miss Grace Drew as "The Jack of Hearts" will repeat their performance of last season. The sale of seats begins Thursday morning at 10 o'clock at Dunn's drug store.

At the Unique

On Monday, Tuesday and Wednesday evenings will be repeated the program which pleased the audiences at each of the three performances given last evening. "Colonial Virginia" shows the founding and subsequent events in Jamestown, and is portrayed in a film of 1500 feet in length. "Puss in Boots" is a fairy tale which takes with the children. "Bicycle Polo," a new and strenuous game is shown as played recently between an American and an English team. Miss Graham continues to please with the latest illustrated songs and solos.

Many little lives have been saved by Foley's Honey and Tar, for coughs, colds, croup and whooping cough. It is the only safe remedy for infants and children as it contains no opiates or other narcotic drugs, and children like Foley's Honey and Tar. Careful mothers keep a bottle in the house. Refuse substitutes. H. P. Dunn, Druggist. mwf-w

Suede Muffs Society Fad.

Young women recently returned from Europe are wearing suede muffs, which are said to be one of the latest conceits of fashion in Paris and London. They are dainty little things, and some of them are ornamented with clusters of violets, roses, geranias and sprays of holly and mistletoe.

LECTURE ON CHINA

Rev. A. E. Andre, of Minneapolis, is Holding a Series of Missionary Meetings in Brainerd

Rev. A. E. Andre, of Minneapolis, spoke yesterday forenoon and evening at the Mission church and to the Sunday school and Young Peoples meeting at the Swedish Baptist church. Mr. Andre was raised in this city where he has numerous friends and there was consequently a large attendance at all the meetings.

His parents, Mr. and Mrs. P. Schoberg, resided here until 1902 when they moved to Seattle. Mr. Andre enjoys the doubly unique honor of being the youngest missionary ever sent to the foreign field by a missionary board and probably the only representative of our city on the missionary field as well as in the ministry.

Having attended High school here he left for India and Tibet in March 1892, at the early age of fifteen the local Mission church having subscribed to his support. He returned in 1896 and was then sent out to China. When the Boxer trouble broke out he had to flee to Japan for safety. The war dragging on and Mrs. Andre's health giving way under the strenuous circumstances, they returned to the states in 1901 but returned to China again in 1902 where they have since been laboring until their return to this country last year.

Mr. Andre will lecture on China at the Swedish Baptist church in Swedish tomorrow, Tuesday night, at 8 o'clock, and at the Methodist Episcopal church Wednesday evening at 8 o'clock, in English. On each occasion the church will be decorated in Chinese style with silk umbrellas, scrolls and typographical decorations. The speaker will be attired in Chinese costume, and will illustrate the lecture with a display of idols, opium pipe, chopsticks, ladies shoes and other curios. The lecture will comprise China's history, topography, cuisine, curious customs, political and social conditions as well as religions.

Simple Remedy for La Grippe

Racking la grippe coughs that may develop into pneumonia over night are quickly cured by Foley's Honey and Tar. The sore and inflamed lungs are healed and strengthened, and a dangerous condition is quickly averted. Take only Foley's Honey and Tar in the yellow package. H. P. Dunn, Druggist. mwf-w

NEW RED CROSS STAMP.

Stromboli and Relief Symbol Will Be on Italian Aid Issue.

The Massachusetts branch of the Red Cross has adopted a new specially designed one cent stamp as an additional means of raising money for the fund to succor the afflicted people of Calabria and Sicily.

The familiar Christmas and New Year's stamps for the benefit of the tuberculosis campaign have been remarkably successful. Since the Italian disaster all sales of these stamps have been for the benefit of the Italian fund. About 2,500 a day have been sold at the general postoffice alone, but it has been thought best to have something distinctive.

The new stamp is triangular in form and represents Stromboli surmounted by clouds of smoke and steam, out of which, clear and triumphant, arises the Red Cross symbol.

The stamp design is the joint gift of Artists Mary Ware Dennett and Alice Morse, who were consulted by the Red Cross officers.

CONVENTION OF "HOBOES."

J. Eads How Calls Them to Meet in St. Louis Jan. 22.

J. Eads How, known as the "king of hoboies," has been heard from. Two months ago he left New York, and the first intimation of his whereabouts since then became known recently, when his followers in New York city received from him an invitation to attend a national convention of "hoboies" in St. Louis. The letter read:

"Realizing that this is going to be a hard winter and that there are all the way from 35,000 to 100,000 men out of employment in all the large cities of the country, we have decided to call a convention of delegates from the different centers to meet in St. Louis on Jan. 22, 23 and 24. The object of this convention will be to endeavor to secure employment for all those desiring work and to attempt to get transportation for unemployed men to their jobs, as well as to consider other matters that are very vital to the unemployed."

Three Negroes and a Mule Killed.

Laurens, S. C., Jan. 16.—Three negro men and a mule were instantly killed by a boiler explosion which occurred at Barnes' saw mill, four miles from this city.

\$100 REWARD \$100

The readers of this paper will be pleased to learn that there is at least one dread disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F. J. CHENEY & CO., Toledo, O. Sold by all druggists, etc. Take Hall's Family pills for constipation.

POE CENTENARY CELEBRATION

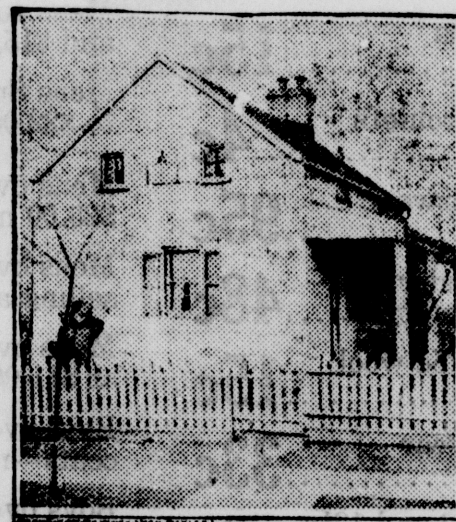

Begun Today at the University of Virginia.

ROOM OPENED AS A MUSEUM

Exercises in Honor of the One Hundredth Anniversary of the Famous Poet's Birth Will Last Four Days. Four Cities Will Join in Paying Homage to the Memory of the Author of "The Raven" and "The Bells."

Washington, Jan. 16.—With the opening today of the room of Edgar Allan Poe at the University of Virginia as a Poe museum the national celebration of the centenary of the great writer's birth began.

There will be no one great central celebration of the one hundredth anniversary of the poet's birth, which occurs Jan. 19. A number of separate celebrations, however, will be held in his honor—one in Boston, where he was born; one at the University of Virginia, where he was educated; another in Providence, R. I., where, after the death of his wife, he wooed Mrs. Sarah Helen Whitman,

THE POE COTTAGE.

also a poet; another in New York, where he lived the closing years of his life, and one in Baltimore, where he died threescore years ago.

Will Hold Appropriate Exercises.

At the University of Virginia the celebration proper will begin this evening, when the Jefferson Literary society, of which the university's greatest literary genius was a member, will hold appropriate exercises. Tomorrow evening the Rev. Dr. W. A. Barr of Lynchburg, Va., will preach in the college chapel.

On Jan. 19 the celebration at the university will reach its climax and assume an international importance. Poe's influence not only on American literature and letters, but on foreign literature, will be the subject of addresses by prominent men.

Two celebrations will be held in New York city on Jan. 19, one at Columbia university, where Thomas Nelson Page, the Virginia author, will be one of the speakers, and another at Fordham cottage and New York university.

The exercises at Poe's cottage at Fordham will consist of a reception in the poet's tiny home, where his

wife died, and the dedication of a tablet in Poe park. This will be followed by a memorial meeting in the auditorium of New York university.

Professor George E. Woodberry, a biographer of Poe, will preside, while the speakers will be Dr. Hamilton Wright Mable and Henry Noble MacCracken. A poem written for the occasion will be read by its author, Edwin Markham.

EULOGIZING SENATOR WHYTE

Senate Devotes Time Today to Memory of Late Marylander.

Washington, Jan. 16.—Today does not exist on the calendar of the United States senate so far as the transaction of public business is concerned. Differences with the president, with the house of representatives and other causes of vexation were forgotten in the homage paid to the memory of the late William Pinkney Whyte, senator from Maryland, who died last March at the age of eighty-four, after long public service.

The address of eulogy was delivered by Senator Rayner of Maryland, colleague of the late statesman.

ENTOMBED NINETEEN DAYS

Children Rescued Alive From Ruins of Their Home.

Messina, Jan. 16.—One hundred sailors from the United States battleship Illinois have been substituted for the men of the Yankton in searching the ruins of the American consulate. All the efforts to find their bodies thus far have been ineffectual, though some of the visiting cards of Mrs. Cheney and books and pictures belonging to the consul have been found.

A thrilling rescue was effected when after having been buried for nineteen days under the ruins of their home, three children of Nicolò Minissoli, who emigrated to America some time ago, were saved. Francesco Minissoli, a boy aged nine years, managed to crawl out alone by burrowing from the ruins. He was wounded in several places and covered with blood. Once in the open air, he fainted, but was taken to a hospital, where he was soon revived and told his story. His two sisters, who had been buried with him, then were rescued by soldiers.

The boy's story seemed almost incredible. On the morning of the earthquake, he said he saw his mother crushed to death under the beams of the ceiling in their home. Francesco and his two sisters fled to the next room, but in a few moments they were precipitated to the cellar. They made desperate efforts to get out, but failed.

In absolute darkness the children groped about the cellar and found a few onions and some wine, water and oil. For sixteen days thus they lived in perfect darkness. Then, when hope almost had fled and when his sisters had resigned themselves to die, Francesco saw in one corner of the prison a faint light. Rushing to the spot, he worked at the debris with his hands and nails and even employing stones as tools, and for three days kept at his task until at last he forced his passage through the opening he had made and was saved.

Kills His Wife and Himself.

Alliance, O., Jan. 16.—Albert Lazinwood, fifty years old, a farmer living near Bergholz, shot and killed his wife, fifty-five years old, and then killed himself on the road near Annapolis. Jealousy is supposed to have been the cause. Lazinwood and his wife had been living apart for several months.

EXTRA FREIGHT TRAINS COLLIDE

Four Trainmen Killed and Two Others Badly Hurt.

Peoria, Ill., Jan. 16.—Two extra freight trains on the Chicago and Northwestern collided head-on near a siding known as Limestone, four miles northwest of this city. Three trainmen were instantly killed, one is missing and believed to be in the wreckage and two others were seriously injured, one of whom may die. The dead are:

Joe Curtin, engineer, Sterling, Ill.; M. Metzler, fireman, home in Virginia; J. A. Russell, brakeman, Sterling. The missing man, buried in the wreckage, is O. A. Houchins, brakeman, Sterling, Ill.

The injured men are W. J. Watson, Chicago, fireman, serious, will die; Thomas Neville, Chicago, engineer, leg broken and bruised.

Owing to the darkness and a fitful fall of snow, the engineers could not see each other's trains until too close to avoid the smash. The two engines and half a dozen loaded freight cars in each train are piled into a splintered mass. A wrecking train was hurriedly sent to the scene and two of the dead and two injured were brought to the city. Two other bodies are still beneath the wreckage.

No cause can definitely be assigned for the disaster, though it is generally believed it was a mistake in train orders.

Pigs' Blood For Tuberculosis.

Pigs' blood medicated is of the highest value in the cure of incipient tuberculosis, according to an announcement recently made by Dr. Daniel E. Ricardo, lecturer on gynecology and surgery in the Postgraduate Medical college at Chicago. Ox blood or cow blood is also good, according to the physician, but he places the highest value on pigs' blood, because the latter contains a much higher percentage of hemoglobin—the red part of the blood corpuscles.

To Messina.

Thou art widow by the sea
With thy dead encumbering thee.
Thou art light, and thou art doom,
Desolate by an awful tomb.
Dust the greatness, dust the gleam
Of thy glory and thy dream!

City, thou art one apart
With a gray grief in the heart,
Broken and with violence bent
By the Titan element,
Weeping that where'er ye tread
Stare the dim eyes of the dead!

Sicily, this blossom warm
Of thy beauty rolls in storm,
Rocks in thunder and is lost
Where the tidal seas have tossed
Doom upon her, and her light
Fades with wailing down the night

Cease, ye cymbals; halt the feet
Of Theocran dancers sweet,
Yonder on the sulphurous air
Floats the lurid giant Despair.
Horror follows, and the land
Rolls in fragments to the strand!

Yet be comforted, dark Grief,
Rushing to thy quick relief
All the old humanity
Of the Christian world, set free
On the wings of Love, makes haste
To repair thy wound and waste!

Time that buries also builds;
Doom that crushes also glides.
Out of night the dream of night
Leadeth to the light of light.
Blister, bowed beside thy sea,
God forgets not such as these!
—Baltimore Sun.

Heavy Loss From Fire.
 Philadelphia, Jan. 18.—Fire completely destroyed the upholstery and curtain warehouse factory of Oehrl-

Brothers & Co., causing a loss of \$125,000. The roof of the Merchants hotel was slightly damaged and the hotel furniture ruined by water.

TRIES TO FREE HIS BROTHER

Arkansas Man Shoots at an Officer and Wounds Passenger on Train.

Little Rock, Ark., Jan. 18.—Entering the car of an Iron Mountain train near Fort Smith, in which his brother, Grant Quinn, sat handcuffed to the Police Officer Burgess of this city who was bringing Quinn to Little Rock to be turned over to the military authorities as a deserter, Lee Quinn opened fire on the officer. Burgess returned the fire and several of the passengers came to his assistance. Quinn, after emptying his pistol leaped from the train and escaped. During the fusillade one of the passengers, Irwin Brassfield of Mulberry Ark., received what is believed will prove a fatal wound. Burgess was uninjured and continued to Little Rock, where he placed his prisoner in the custody of the military authorities.

Serious Riot in Dresden.

Dresden, Jan. 18.—A Socialist demonstration in behalf of electoral reform led to a serious riot, in which 20 persons were seriously and at least 100 slightly injured. Many conflicts occurred between the police and the rioters, the former eventually beating back the great crowd of Socialists who were endeavoring to force their way to the palace of the reigning king, Friedrich August.

THIRTY CASES ARE SETTLED

Construction Firms Pay for Deaths Caused by Iroquois Theater Fire.

Chicago, Jan. 18.—After five years of hotly contested litigation settlements have been made in the cases of thirty of the deaths caused by the Iroquois theater fire. It is stated that \$750 a case is to be paid by one of the firms responsible for the construction of the theater, the prosecutions against the companies in these cases having been withdrawn from court. In one instance a man who lost his wife and three children in the fire received \$750 for each death. Many other suits against firms and individuals interested in the theater are still pending. The number of unsettled cases is estimated at over 400.

Passenger Train Wrecked.

Little Rock, Ark., Jan. 18.—Rock Island passenger train No. 43, west-bound from Memphis to El Reno, Okla., ran into an open switch and crashed into a switch engine, killing the fireman of the switch engine, J. M. Woods of Argenta, and partly demolishing both engines. The engineer and fireman of the passenger train jumped before the crash. Both were hurt, but not seriously. Other trainmen and the passengers escaped.

DRIVEN ASHORE DURING STORM

Schooner Wrecked and All on Board Perished.

WRECKAGE STREWED BEACH

But No Trace of the Twelve Men on Board the Swallow Can Be Found. Lifesavers Patrol the Beach in Vain Search of Missing Sailors—Gale Causes Many Accidents in the City of New York.

New York, Jan. 18.—In a biting, driving snow storm off the Long Island shore another vessel, the schooner Swallow of St. Johns, N. F., and her crew paid the toll so often demanded of those who go down to the sea in ships. The story of the wreck was told by the sea itself, for it strewn the beach east of Fire Island for several miles with bits of wreckage from the ship itself and from her cargo. Of the crew, probably five or six men judging from the schooner's size, there was no trace.

A beach man from the Blue Point lifesaving station saw some black objects bobbing about in the tumbling surf close to shore. He hauled some of them in and, finding it was new wreckage, hurried back to his station to report and to secure aid. Other beach men soon were on the scene. There were timbers, new lumber, frozen herring and fishing tackle and finally they came to a signboard which told the unfortunate vessel's name.

The lifesavers stood by and patrolled the beach all day in the hope that they might find some trace of the crew, but nightfall came and their quest had been in vain.

It is supposed that the Swallow, presumably a fisherman, was bound from Newfoundland to New York with a cargo of frozen herring and that she carried a deckload of lumber. Caught in the storm, the crew probably lost their bearings and struck on one of the many sandbars a mile or so off shore near the Blue Point station. There the wind and heavy seas pounded the vessel to pieces in a short time and the men aboard were probably speedily lost in the sea. The Swallow, according to the marine register, was a small schooner of seventy-five tons. She was built thirty years ago at Moose's River and was owned by John Dawson of St. Johns.

One death, many accidents and numerous exposure cases, blockades of "L" and surface lines and ice coated streets that made outdoor life dangerous—these were some of the heritages of the storm that struck New York, bringing with it three inches of snow, sleet and rain. The storm was accompanied by a driving gale which made navigation along the seacoast and inside the harbor most dangerous.

BRITISH STEAMER WRECKED

Believed That Most of the Crew of Eighteen Perished.

Cuxhaven, Jan. 18.—The British steamer Eldra has been wrecked off Amrum and is a total loss. The Eldra carried a crew of eighteen and it is believed that most of them perished while trying to make the shore, the boats being smashed by the heavy breakers. Several bodies have been washed up. The steamer was of 1,218 tons.

NEARLY ALL ACCOUNTED FOR

But Search Will Be Continued for Bodies of Wreck Victims.

Glenwood Springs, Colo., Jan. 18.—The confusion following upon the wreck at Dotsero is gradually getting straightened out. The track has been entirely cleared and traffic resumed. The debris thrown to one side while searching for bodies and clearing the track is to be searched carefully a second time for bodies.

There have been no deaths among the injured since Saturday and more hope is entertained for the recovery of those whose condition is serious. There were 136 passengers on the train and most of them are accounted for. It is known that a number proceeded on their way without being reported. Some of the unknown dead have been identified.

George Maham of Princeton, Ind., is missing. His wife is one of the seriously injured and in no condition to give a description. She insists that her husband and father were on the train. The father, Henry Dunn of St. Louis, has been found among the dead.

Among those who are still considered in a precarious condition are L. J. Ezell and Margaret Ezell of Willis-ton, N. D.

Company Not to Blame.

Bluefield, W. Va., Jan. 18.—The coroner's jury arrived at a verdict as a result of their investigation into the death of the sixty-five men who were killed in Lick Branch mine explosion last Tuesday. The jury decided the explosion was caused by an over-charged shot of gunpowder in room 21 of the mine and that sixty-five men came to their death through no fault of the Pocahontas Consolidated Colliery company or the Lick Branch colliery.

TAFT TALKS TO NEGROES

Discusses the Christian Uplift of Y. M. C. A. Work.

Augusta, Ga., Jan. 18.—Introduced to a big audience of men, comprising the negro Y. M. C. A. of this city, as "the most popular and conspicuous citizen of the United States, America's great statesman, our uncrowned king, for whom we wish a successful administration and a second term," by the famous Dr. Walker, known as the "Black Spurgeon," Mr. Taft became greatly interested in discussing the Christian uplift of Y. M. C. A. work and talked for an unusually long time to his enthusiastic listeners.

Dr. Walker painted a bright present and a brighter future for the negroes of Georgia, who owned, he said, 1,900,000 acres of land in the state and paid taxes on \$20,000,000 worth of property.

This report Mr. Taft regarded as most encouraging; it gave him an illustration of the belief that the race question must be settled by the negroes themselves becoming indispensable to the community in which they lived. This meant industry, information and thrift, acquired by constant individual effort. He dwelt at length upon the advantage of Y. M. C. A. work to bring about this end.

As a Family Medicine

Lots of suffering would be avoided and much serious disease prevented if every family did as the writer of this letter suggests.

He has found out from experience with many medicines that there is nothing so good as Dr. A. W. Chase's Kidney and Liver Pills as a family medicine for biliousness and constipation. Such diseases as Bright's disease, diabetes and appendicitis almost invariably arise from neglect to keep the liver, kidneys and bowels regular.

This emphasizes the wisdom of keeping Dr. A. W. Chase's Kidney and Liver Pills constantly at hand.

MR. WM. PALARDY, 146 Summer St., Central Falls, R. I., writes: "I think Dr. A. W. Chase's Kidney and Liver Pills most excellent as a cure for biliousness and constipation. We would not think of being without them in the house as a family medicine. I have used many medicines but none ever suited my case so well."

One pill a dose, 25 cents a box, at all dealers or Dr. A. W. Chase Medicine Co., Buffalo, N. Y.

TRIES TO FREE HIS BROTHER

Arkansas Man Shoots at an Officer and Wounds Passenger on Train.

Little Rock, Ark., Jan. 18.—Entering the car of an Iron Mountain train near Fort Smith, in which his brother, Grant Quinn, sat handcuffed to Police Officer Burgess of this city who was bringing Quinn to Little Rock to be turned over to the military authorities as a deserter, Lee Quinn opened fire on the officer. Burgess returned the fire and several of the passengers came to his assistance. Quinn, after emptying his pistol leaped from the train and escaped. During the fusillade one of the passengers, Irwin Brassfield of Mulberry Ark., received what is believed will prove a fatal wound. Burgess was uninjured and continued to Little Rock, where he placed his prisoner in the custody of the military authorities.

Serious Riot in Dresden.

Dresden, Jan. 18.—A Socialist demonstration in behalf of electoral reform led to a serious riot, in which 20 persons were seriously and at least 100 slightly injured. Many conflicts occurred between the police and the rioters, the former eventually beating back the great crowd of Socialists who were endeavoring to force their way to the palace of the reigning king, Frederick August.

THIRTY CASES ARE SETTLED

Construction Firms Pay for Deaths Caused by Iroquois Theater Fire.

Chicago, Jan. 18.—After five years of hotly contested litigation settlements have been made in the cases of thirty of the deaths caused by the Iroquois theater fire. It is stated that \$750 a case is to be paid by one of the firms responsible for the construction of the theater the prosecutions against the companies in these cases having been withdrawn from court. In one instance a man who lost his wife and three children in the fire received \$750 for each death. Many other suits against firms and individuals interested in the theater are still pending. The number of unsettled cases is estimated at over 100.

Passenger Train Wrecked.

Little Rock, Ark., Jan. 18.—Rock Island passenger train No. 43, west-bound from Memphis to El Reno, Okla., ran into an open switch and crashed into a switch engine, killing the fireman of the switch engine, J. M. Woods of Argenta, and partly demolishing both engines. The engineer and fireman of the passenger train jumped before the crash. Both were hurt, but not seriously. Other trainmen and the passengers escaped.

DRIVEN ASHORE DURING STORM

Schooner Wrecked and All on Board Perished.

WRECKAGE STREWED BEACH

But No Trace of the Twelve Men on Board the Swallow Can Be Found.

Lifesavers Patrol the Beach in Vain Search of Missing Sailors—Gale Causes Many Accidents in the City of New York.

New York, Jan. 18.—In a biting, driving snow storm off the Long Island shore another vessel, the schooner Swallow of St. Johns, N. F., and her crew paid the toll so often demanded of those who go down to the sea in ships. The story of the wreck was told by the sea itself, for it strewn the beach east of Fire Island for several miles with bits of wreckage from the ship itself and from her cargo. Of the crew, probably five or six men judging from the schooner's size, there was no trace.

A beach man from the Blue Point lifesaving station saw some black objects bobbing about in the tumbling surf close to shore. He hauled some of them in and, finding it was new wreckage, hurried back to his station to report and to secure aid. Other beach men soon were on the scene. There were timbers, new lumber, frozen herring and fishing tackle and finally they came to a signboard which told the unfortunate vessel's name.

The lifesavers stood by and patrolled the beach all day in the hope that they might find some trace of the crew, but nightfall came and their quest had been in vain.

It is supposed that the Swallow, presumably a fisherman, was bound from Newfoundland to New York with a cargo of frozen herring and that she carried a deckload of lumber. Caught in the storm, the crew probably lost their bearings and struck on one of the many sandbars a mile or so off shore near the Blue Point station. There the wind and heavy seas pounded the vessel to pieces in a short time and the men aboard were probably speedily lost in the sea. The Swallow, according to the marine register, was a small schooner of seventy-five tons. She was built thirty years ago at Moose's River and was owned by John Dawson of St. Johns.

One death, many accidents and numerous exposure cases, blockades of "L" and surface lines and ice coated streets that made outdoor life dangerous—these were some of the heritages of the storm that struck New York, bringing with it three inches of snow, sleet and rain. The storm was accompanied by a driving gale which made navigation along the seacoast and inside the harbor most dangerous.

BRAINERD OPERA HOUSE

Frank G. Hall, Manager

Friday, January 22

SAMUEL E. RORK'S

Immense Spectacular Production

The LAND of NOD

Presented by

75 Comedians, Singers, Dancers

Heavy Loss From Fire.

Philadelphia, Jan. 18.—Fire completely destroyed the upholstery and curtain warehouse factory of Gehl-

Brothers & Co., causing a loss of \$125,000. The roof of the Merchants hotel was slightly damaged and the hotel furniture ruined by water.

TAFT TALKS TO NEGROES

Discusses the Christian Uplift of Y. M. C. A. Work.

Augusta, Ga., Jan. 18.—Introduced to a big audience of men, comprising the negro Y. M. C. A. of this city, as "the most popular and conspicuous citizen of the United States, America's great statesman, our uncrowned king, for whom we wish a successful administration and a second term," by the famous Dr. Walker, known as the "Black Spurgeon," Mr. Taft became greatly interested in the Christian uplift of Y. M. C. A. work and talked for an unusually long time to his enthusiastic listeners.

Dr. Walker painted a bright present and a brighter future for the negroes of Georgia, who owned, he said, 1,000,000 acres of land in the state and paid taxes on \$20,000,000 worth of property.

This report Mr. Taft regarded as most encouraging; it gave him an illustration of the belief that the race question must be settled by the negroes themselves becoming indispensable to the community in which they lived. This meant industry, information and thrift, acquired by constant individual effort. He dwelt at length upon the advantage of Y. M. C. A. work to bring about this end.

As a Family Medicine

Lots of suffering would be avoided and much serious disease prevented if every family did as the writer of this letter suggests.

He has found out from experience with many medicines that there is nothing so good as Dr. A. W. Chase's Kidney and Liver Pills as a family medicine for biliousness and constipation. Such diseases as bright disease, diabetes and appendicitis almost invariably arise from neglect to keep the liver, kidneys and bowels regular.

This emphasizes the wisdom of keeping Dr. A. W. Chase's Kidney and Liver Pills constantly at hand.

Mr. WM. PALARDY, 146 Summer St., Central Falls, R. I., writes:—"I think Dr. A. W. Chase's Kidney and Liver Pills most excellent as a cure for biliousness and constipation. We would not think of being without them in the house as a family medicine. I have used many medicines but none ever suited my case so well."

One pill a dose, 25 cents a box, at all dealers or Dr. A. W. Chase Medicine Co., Buffalo, N. Y.

BRITISH STEAMER WRECKED

Believed That Most of the Crew of Eighteen Perished.

Cuxhaven, Jan. 18.—The British steamer Eldra has been wrecked off Amrum and is a total loss. The Eldra carried a crew of eighteen and it is believed that most of them perished while trying to make the shore, the boats being smashed by the heavy breakers. Several bodies have been washed up. The steamer was of 1,218 tons.

NEARLY ALL ACCOUNTED FOR

But Search Will Be Continued for Bodies of Wreck Victims.

Glenwood Springs, Colo., Jan. 18.—The confusion following upon the wreck at Dotsero is gradually getting straightened out. The track has been entirely cleared and traffic resumed. The debris thrown to one side while searching for bodies and clearing the track is to be searched carefully a second time for bodies.

There have been no deaths among the injured since Saturday and more hope is entertained for the recovery of those whose condition is serious. There were 136 passengers on the train and most of them are accounted for. It is known that a number proceeded on their way without being reported. Some of the unknown dead have been identified.

George Maham of Princeton, Ind., is missing. His wife is one of the seriously injured and in no condition to give a description. She insists that her husband and father were on the train. The father, Henry Dunn of St. Louis, has been found among the dead.

Among those who are still considered in a precarious condition are L. J. Ezell and Margaret Ezell of Willis-ton, N. D.

Company Not to Blame.

Bluefield, W. Va., Jan. 18.—The coroner's jury arrived at a verdict as a result of their investigation into the death of the sixty-five men who were killed in Lick Branch mine explosion last Tuesday. The jury decided the explosion was caused by an over-charged shot of gunpowder in room 21 of the mine and that sixty-five men came to their death through no fault of the Pocahontas Consolidated Colliery company or the Lick Branch colliery.
